## EDUCATION

**Keldysh Institute of Applied Mathematics** (KIAM), Moscow, Russia

*Program Analysis and Transformation Group*

Theoretical Computer Science (2nd year PhD-dropout)

**Moscow Institute of Physics and Technology** (MIPT), Moscow, Russia

*Department of Control and Applied Mathematics, Chair of Informatics (CIS)*

*M.S. in Mathematics and Computer Science*, GPA: 5.0/5.0

*Thesis*: Embedding Domain Specific Language in F# for Hybrid System Control

*Advisor*: Andrey Ustyuzhanin, PhD in CS, Associate Professor at MIPT

**South Ural State University** (SUSU), Chelyabinsk, Russia

*Faculty of Electronics, Department of Computing Systems and Network*

*Diplomated Specialist*: Computing Systems and Networks, GPA: 4.5/5.0

*Thesis*: Distributed System for Conferencing

*Advisor*: Sergey Tkachev, Researcher at SUSU, CEO of Genrix Software

**South Ural State University** (SUSU), Chelyabinsk, Russia

*Faculty of Linguistics, Department of Linguistics*

Diploma of Occupational Training: Theory & Practice of English Language, GPA: 4.7/5.0

**Yandex School of Data Analysis**, 3 of 4 semesters

## Summer/Winter Schools

- October 2013, Participant of "Start in Garage" two days startup acceleration program at MIPT. Organized by RISVentures.com
- August 2014, 8th Russian Summer School in Information Retrieval (RuSSIR)
- July 2011, Summer School in Software Engineering and Verification. Best project award for "Formally Proving Facts in the Refinement Algebra" Mentor: Sir Tony Hoare, Microsoft Research
- June 2010, All-Russian summer school in "High Performance Computing"
- August 2009, Microsoft Research HPC Summer School at MSU
- June 2009, NVIDIA and Intel Summer School at MIPT

## Self Education

- Udemy: Become a SuperLearner
- Coursera: "Algorithms: Design and Analysis", "Machine Learning", "Principles of Reactive Programming in Scala", "Functional Programming Principles in Scala"
- Structure and Interpretation of Computer Programs, H. Abelson and G. J. Sussman

## EXPERIENCE

### Digital October, New Professions Lab

March 2015 – present

*BigData Course Tutor*

*Moscow, Russia*

- Tutoring 60+ students
- Improving educational materials

### Collective Media

November 2014 – May 2015

*External Scala development consultant*

*New York, USA / Moscow, Russia*

- Helped to build high-loaded backend for ad-tagging server that serves 100K+ requests per second
- Introduced JMH benchmarking to the project. Optimized bunch of performance critical parts of code
- Advocated and contributed to open-sourced projects: [kamon](#), [sbt-aspectj](#), [monitor](#), [scala-mustache](#), [scredis](#), [rediscala](#), [riemann](#)
- Developed projects particularly for company needs: [RSlick](#) and [sbt-uglify](#)

- System performance analysis based on Hadoop logging processing
- Contributed significantly to build system automation (SBT)
- Distributed team work

## Google Summer of Code

May 2013 – September 2013

*Intern*

- Successfully finished the internship program. Contributed to a real-world, long-term project being a part of a globally distributed team
- Project: parboiled2 – a Macro-Based PEG Parser Generator for Scala ([parboiled2.org](http://parboiled2.org))

## [job]snipper

April 2013 – April 2014

*co-Founder*

- Backend development, machine-learning algorithms implementation, architecture design, database design, RESTful API design
- Data analysis, A/B tests: query logs and job postings
- Fall 2013, R&D Grant for [job]snipper, U.M.N.I.K.-MIPT (\$13000USD)
- Distributed team work

## iiko

November 2012 – July 2013

*C# and Java Backend Software Developer*

*Moscow, Russia*

- Connected <http://iiko.net> to social networks: Twitter, Facebook, VKontakte
- Contributed to the development and improvement of two core features: "profit and loss reports" and "incentive programs"
- Bug fixing, code optimization, tech talks, API design

## Kudoster – social service for thankful people

May 2012 – November 2012

*co-Founder, C# Backend Developer*

*Moscow, Russia*

- Iterated on multiple versions of a product and business models
- Developed a fully functional backend from a mere concept: system architecture, database design, RESTful API design, development of highload service, optimization and testing, social networks integration

## NVIDIA

December 2010 – May 2012

*Contractor at CUDA Certification and Tech Marketing Department*

*Moscow, Russia*

- Served as an evangelist of CUDA technologies: certification program support, CUDA experts search, production of CUDA teaching materials (tutorials, talks..)
- Invited speaker at Summer 2011, Winter 2011 and Spring 2012 Schools in GPU Computing and CUDA at Moscow State University
- Co-author of the book "Parallel computing on GPU Architecture and CUDA programming model" and the corresponding online course for [hpc-education.ru](http://hpc-education.ru)
- Developed a cross-platform GUI shell for teaching purposes

## Applied Parallel Computing (Education and Research Center)

July 2010 – December 2010

*C++ R&D Intern*

*Moscow, Russia*

- Completed an R&D project on augmented reality acceleration with CUDA
- Successfully passed CUDA certification exam

## Genrix Software

September 2006 – May 2009

*C# Developer*

*Chelyabinsk, Russia*

- Developed software prototypes that resulted in significant impact on Genuine Channels product

## Alpha-Zeon (System Integrator, Microsoft Gold Certified Partner)

September 2007 – May 2008

*Business Solutions Developer (Practical Training)*

*Chelyabinsk, Russia*

- Contributed to the development of a enterprise local automation system based on CRM 3.0 and Share-Point in a team of 5 people
- Successfully passed certification exams on "Microsoft CRM 3.0 Applications" and "Microsoft CRM 3.0 Customization"

## TECHNICAL SKILLS

<i>Computer Languages</i>	Scala, Java, Python, Scheme, Ruby, C#, F#, /C++, CUDA C/C++
<i>Scala Dev Stack</i>	SBT, Macros, Shapeless, Akka, spray.io, Play Framework, Anorm, Slick
<i>Data tools</i>	MySQL, PostgreSQL, Hadoop, Hive, Spark, Aerospike, Redis
<i>Development tools</i>	Microsoft Azure, Heroku, Ubuntu, bash, Nginx, Git, L <sup>A</sup> T <sub>E</sub> X

## Academic Contributions

- Reviewer of books: SBT in Action, Practical Recommender Systems (Manning Press)
- Co-author of the book "Parallel computing on GPU Architecture and CUDA programming model"
- Co-author of the online course "Parallel computing on GPU Architecture and CUDA programming model" for [hpc-education.ru](http://hpc-education.ru)
- Co-author of MIPT course "Basics of Robot Programming Using MS Robotics Development Studio"
- Mozilla Labs article author: "[Elevating JavaScript Performance Through GPU Power](#)"

## Tech/Invited Talks

- Invited speaker at [ScalaDays.org 2014 conference](#) in Berlin, Germany
- Invited speaker at Summer 2011, Winter 2011 and Spring 2012 Schools in GPU Computing and CUDA at Moscow State University

## Honors & Awards

- Fall 2013, R&D Grant for [job]snipper, U.M.N.I.K.-MIPT (\$13000USD)
- 2010, CUDA certified professional
- Imagine Cup 2011 team, Russian finalists of Embedded Development
- Best Report at VII All-Russian Conference "Microsoft Technologies in Theory and Practice of Programming" in 2010
- Imagine Cup 2010 team, 2nd place in a regional stage of Software Design Competition in Moscow & 4th place in Russian final of Embedded Development
- Mozilla Labs Jetpack 0.5 Contest 2009 winner: Mozilla Firefox Jetpack and NVIDIA CUDA integration for data processing
- 9th place of 258 at Imagine Cup 2009 Robotics & Algorithms semifinal (the only solution written in a functional language, F#)

## OPENSOURCE CONTRIBUTIONS

### [parboiled2](#)

May 2013 – present

*Co-author, core developer*

[parboiled2.org](http://parboiled2.org)

- Macro-Based PEG Parser Generator for Scala
- Co-designed the overall architecture
- Implemented most of the functionality till the present moment
- The project is in core of [Typesafe Akka-HTTP](#) (AKA [spray.io](#))

### [Scalan-GPU](#)

October 2012 – March 2013

*Co-author*

[github.com/alexander-myltsev/Scalan-GPU](https://github.com/alexander-myltsev/Scalan-GPU)

- Thrust/CUDA backend for Scalan-v2 library (an implementation of nested data parallelism in Scala)
- Designed the overall architecture
- Implemented  $\alpha$ -version of "Scalan-CUDA" translator and launcher

### [ASP.NET MVC4](#)

September 2012 – November 2012

*Contributor*

[github.com/aspnet/Mvc](https://github.com/aspnet/Mvc)

## ADDITIONAL INFORMATION

Languages	Russian (mother tongue), English (fluently reading technical documentation, verbal proficiency adequate to pass a technical interview)
Personality	hard-working, responsible, research-driven, energetic, innovative, experienced to work in globally distributed teams
